How can that be? It all comes from cows, right? Yes, but that's where the similarity ends. The truth is, there are actually two types of raw milk here in America: the one meant to be consumed directly from the cow, and the one that absolutely must be pasteurized first due to the conditions under which it was produced.

### **About Raw Milk**

Raw milk or unpasteurized milk is milk that has not been pasteurized, a process of heating liquid foods to decontaminate them for safe drinking. While proponents of raw milk have stated that there are benefits to its consumption, including better flavor, better nutrition, and the building of a healthy immune system, the medical community has ...
