

the representational theory of pdf

Non-representational theory is a theory developed in human geography, largely through the work of Nigel Thrift (Warwick University), and his colleagues such as J.D. Dewsbury (University of Bristol) and Derek McCormack (University of Oxford), and later by their respective graduate students.

Non-representational theory - Wikipedia

Representation is the use of signs that stand in for and take the place of something else. It is through representation that people organize the world and reality through the act of naming its elements. Signs are arranged in order to form semantic constructions and express relations.
